

## Workshop POSEIDO TALES 3

Malta, 8-9 April 2017

### INTRODUCTION

**POSEIDO TALES** workshops held by tutor Paolo Lazzarotti are an effective and quick way to learn more about seascape image composition, framing and shooting.

The whole workflow behind award winning shots will be explained in a very easy way, directly in the field while capturing marine panoramas that could be turned out as magic moments filled with poetry thanks to the gentle presence of a woman in the scene.

People attending at the workshop will be instructed about composition and framing with and without a model in the site, how to shoot the scene to achieve the desired effect according to the sea and weather conditions.

A beautiful model will be available to anybody through the workshop and she will be fully managed by tutor Paolo Lazzarotti. We're also completely open to any idea coming to any of you!

The model will be posing along the location coastline in a safe way, even in case of very rough sea conditions.

The workshop locations will be **Xrobb-I-Ghagin** peninsula and **St. Peter's Pool** cliff located in south-eastern coast of Malta island.

### PROGRAM

#### - SATURDAY APRIL 8

14:00 - 14:30 Meeting in Marsaxlokk, Ir-Rizzu restaurant (model release signing, balance due).
